*Athens March 10, 2011*

Dear comrades

On behalf of PAME we send you the militant greetings of the class – oriented trade union movement of Greece, in your struggle against the unpopular policies of the government of Italy.

Our struggle is common against the capital and his political representatives, who want to live the working class without rights at the 21 century.

Dear comrades

We wish you every success in your strike.

*With estimation,*
