

Solidarity with the Workers of Italy and USB for the Strike of November 20

, 17/11/2015

PAME that represents the class trade union movement of Greece expresses its solidarity with the workers of Italy and the trade union organization USB for their Strike in Public Services on November 20.

The workers of Italy are facing an attack to their wages and pensions, they face the privatizations of Education, Healthcare, Social Security and new attack against trade union rights and the right to Strike. Such measures are imposed to support the interests of the Business Groups. This attack that proceeds in all countries of Europe shows that the workers in every country have common enemies the Capital, the Government and the political parties that serve it, and the European Union.

PAME supports the just struggle of the workers in Public Services of Italy and wishes them success at the Strike of Workers in Public Services of Italy on November 20
