USB supports the Palestinian people

Nazionale, 31/03/2018

USB supports the Palestinian people who are currently undergoing yet another frightful massacre, costing up to 16 unarmed Palestinians and more than a thousand injured.

The attack began a few hours before the start of the "March of Return", proclaimed by the Palestinians on the "Earth Day" that commemorates the six Palestinians killed by the Israeli police in Galilee during the protests, 32 years ago, against the confiscation of Arab lands. A recurrence that, over the years, has turned into an occasion for the condemnation of the military occupation of the occupied Palestinian territories and of supporting the Arab minority in Israel.

we are close to the Palestinian people and we support their struggle, their march, the right of return and the end of the Israeli occupation.
